ROCKLAND PLASTIC SURGERY PHYSICIANS TO SPEAK AT 9TH CONGRESS OF THE TURKISH SOCIETY FOR AESTHETIC PLASTIC SURGERY

Pearl River, NY (May 6, 2005) – Drs. Michael Fiorillo and Hakan Usal of Rockland Plastic Surgery have been selected to speak at the 9th Congress of the Turkish Society for Aesthetic Plastic Surgery, which begins Thursday, May 12 in Istanbul. The program offers two days of lectures and panels from the masters mainly focused on the face and breast surgery, which will be followed by one and a half days of the Rhinoplasty Workshop.

Dr. Usal will be on hand to discuss the technical fine points for improving outcomes suture suspension platysma plasty of neck rejuvenation and give an introduction to new anti-aging techniques. Dr. Fiorillo will join Dr. Usal's neck rejuvenation discussion and cover the long-term results of the suture suspension neck rejuvenation - particularly what physicians and patients can expect from their 13-year follow-up procedure.

"We are honored that the program committee selected us to share our insight with world renowned plastic surgeons at this important event," said Dr. Hakan Usal, Rockland Plastic Surgery. "The opportunity to go back to my roots in Turkey and present before this board and to see patients in Turkey will be a great experience."

Other topics discussed at this conference are advances in browlifts, surgical techniques and complications of breast augmentation, and surgical treatment for migraine headaches.
